III. 閱讀測驗 (10%, 每題 2 分)

A.

The Garbage Mountain in India

Ghazipur landfill, a "garbage mountain" in New Delhi, is becoming a new problem for the government of India. The 65-meter-high landfill grows bigger every year and will soon be taller than the 73-meter-high Taj Mahal by 2020.

The garbage creates dangerous gas and makes a lot of pollution to the air, land, and water around the landfill. Because the pollution is making people sick, the government needs to work hard to clean up the landfill to solve this serious problem.

31. What **CAN'T** we learn about the garbage mountain from the article?
(A) Where the garbage mountain is.
(B) How tall the garbage mountain is today.
(C) What the government did to clean it up.
(D) How bad the pollution is for the people.
32. Which is true?
(A) The landfill is taller than the Taj Mahal in 2019.
(B) The government creates dangerous gas around the landfill.
(C) People are not healthy because of the garbage mountain.
(D) The government decides to clean up the landfill soon.

B.

This is a piece of paper in Anthony's bag.
